Self-Learning Education

Mr. Ahmad Ali Solaiman Abdurraheem
Academic year 2025 & 2026

English Education has been developed recently! Education encompasses both the teaching and learning of knowledge, proper conduct, and technical competency. It thus focuses on the cultivation of skills, trades or professions, as well as mental, moral & aesthetic development. Formal education consists of systematic instruction, teaching and training by professional teachers. This consists of the application of pedagogy and the development of curricula.

**In the name of Allah,
the Most Merciful, the
Most Compassionate**

(Arabic is your best way to the Paradise in the Day of Judgement! But English is your best way to the life on the Earth nowadays! Then, you should do all your best to speak, write, understand and treat with them easily and fluently! That is my attempt which helps you in English. I designed it in a very easy style putting the questions and answers to make you as a student and a teacher at the same time! In a word, it is a kind of self-learning! May Allah bless you all! With my best hearty wishes!)
