

In The Name of Allah We Start

Do you believe that earth transmits continuous sound frequencies but we don't hear it? That is the most recent discovery in the earth science. What did the Qur'an say about that?....

"Earth speaks" I found this title in one of the international websites which is www.discovermagazine.com, in fact that title is an ordinary title in this era because scientists had discovered that every thing in the universe transmit sound frequencies.

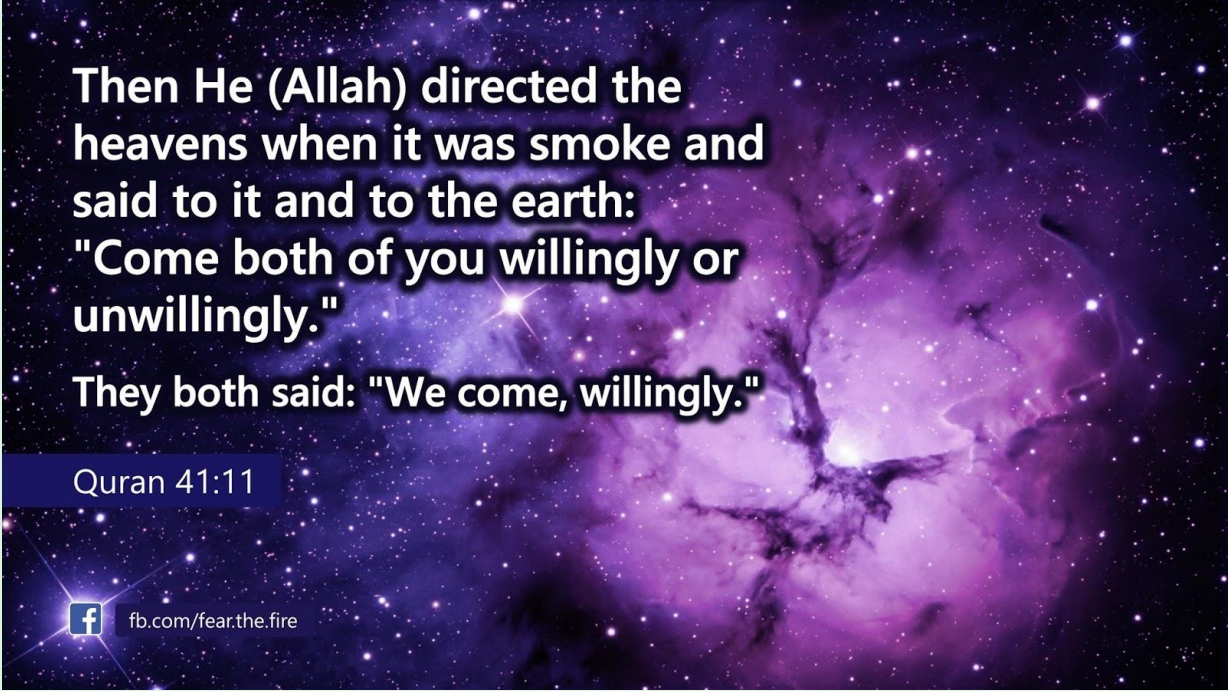

But at the time of the descending of the Qur'an that matter wasn't known at all as human at that time didn't imagine that earth is transmitting vibrations, but the Qur'an told us about that issue in many verses which were explained by many explainers

that Allah almighty gave earth the ability to speak so it became able to speak.

God says : (Then **He** rose over (Istawâ) towards the **heaven** when it was smoke, and **said** to it (**heaven**) and to the earth: "**Come both of you willingly or unwillingly.**"

" They **both said**: "We come willingly.")

(Sûrat Fussilat- verse 11)

Then He (Allah) directed the heavens when it was smoke and said to it and to the earth: "Come both of you willingly or unwillingly."

They both said: "We come, willingly."

Quran 41:11

 / PLANET EARTH

Earth Speaks in an Inaudible Voice

You can't hear it, but our planet's ultradeep hum could save your life.

Also **God says** about the Pharaoh and his chiefs after He be blessed and exalted drown them : (**And the heavens and the earth wept not for them nor were they given a respite.**)

(Sûrat Ad-Dukhân- verse 29).

If we read saying of the explainers we can see that they believed in the ability of earth and heaven to speak in a real voice and also in their ability to cry.

One of the most important space websites which is **www.space.com** had published an article with a title "**sky is speaking**".

Mark Whittle, an astronomer at the University of Virginia found that universe in its early beginning was transmitting sound

frequencies which were caused by the sudden expansion of the gases

I will now show you part of the story of the

Prophet Abraham in the Qur'an ((surah Ibrâhîm))

35. And (remember) when Ibrâhîm (Abraham) said: "O my Lord! Make this city (Makkah) one of peace and security, and keep me and my sons away from worshipping idols.

36. "O my Lord! They have indeed led astray many among mankind. But whoso follows me, he verily is of me. And whoso disobeys me, still You are indeed Oft-Forgiving, Most Merciful.

37. "O our Lord! I have made some of my offspring to dwell in an uncultivable valley by Your Sacred House (the Ka'bah at Makkah) in order, O our Lord, that they may perform As-Salât (Iqâmat-as-Salât). So fill some hearts among men with love towards them, and (O Allâh) provide them with fruits so that they may give thanks

38. "O our Lord! Certainly, You know what we conceal and what we reveal. Nothing on the earth or in the heaven is hidden from Allâh

39. "All the praises and thanks be to Allâh, Who has given me in old age Ismâ'îl (Ishmael) and Ishâq (Isaac). Verily! My Lord is indeed the All-Hearer of invocations.

40. "O my Lord! Make me one who performs As-Salât (Iqâmat-as-Salât), and (also) from my offspring, our Lord! And accept my invocation.

41. "Our Lord! Forgive me and my parents, and (all) the believers on the Day when the reckoning will be established."

It must be noted that the story of Abraham is mentioned in several surahs of the Qur'an, not one surah

Hadith

On the authority of Zayd ibn Khalid al-Juhaniyy (may Allah be pleased with him), who said:

The Messenger of Allah (may the blessings and peace of Allah be upon him)

led the morning prayer for us at

al-Hudaybiyah (Place between mecca and madina) following rainfall during the night.

When the Prophet (may the blessings and peace of Allah be upon him) finished, he faced the people and said to them:

Do you know what your Lord has said?

They said: Allah and his Messenger know best.

He said: This morning one of my servants became a believer in Me and one a disbeliever.

As for him who said: We have been given rain by virtue of Allah and His mercy, that one is a believer in Me, a disbeliever in the stars (1);

and as for him who said: We have been given rain by such-and-such a star, that one is a disbeliever in Me, a believer in the stars.

- (1) The pre-Islamic Arabs believed that rain was brought about by the movement of stars. This Hadith draws attention to the fact that whatever be the direct cause of such natural phenomena as rain, it is Allah the Almighty who is the Disposer of all things.**

Looking Into People's Homes Before Entry

Author:

Adil Salahi, Arab News Staff

Publication Date:

Fri, 2003-04-25 03:00

We emphasized over the last couple of weeks the importance of announcing oneself when visiting one's relatives, friends or other people. One must seek permission before entry. While this may be taken for granted in urban areas and contemporary houses which have doors and locks, the case is not so in some rural areas and other communities. In Arabia at the time of the Prophet most homes did not have doors, and people could enter at will. The Prophet emphasized that anyone must seek permission before entering the home of even one's closest relatives. This is due to the fact that in their homes people must have their privacy. They may be in a position which they do not like to be seen by anyone. To enter unannounced may cause much embarrassment, leading to hard feelings.

**SCIENTIFIC FACT FORETOLD BY PROPHET MUHAMMAD
(Peace be upon him); 360 JOINTS IN HUMAN BODY.**

Narrated Buraydah ibn al-Hasib (May Allah be pleased with him):
“I heard the Apostle of Allah (peace be upon him) say,
“A human being has **three hundred and sixty joints** for each of which he must give alms.”
(Sunan Abu-Dawud, Bk 41# 5222)

ARE YOU STILL DENYING THE ESTABLISHED FACTS OF THE 360 JOINTS IN THE HUMAN BODY..?

THINK AGAIN!!

Prior to 1995 it was thought that there are 340 joints in the human body. In 1995 a scientific institute proved that the internal ear consists of 10 joints each (made up of cartilaginous matter). Thus 20 joints were added and the discovery was made that the human body consists of 360 joints.

A SCIENTIFIC FACT THAT WAS PRECISELY MENTIONED BY PROPHET MUHAMMAD (Peace be upon him) OVER 1400 YEARS AGO, AT A TIME WHEN NOBODY HAD ANY IDEA ABOUT HUMAN ANATOMY..!
