i just want to be Yours

... Let's start our novel by saying that everything i wrote is from my imagination.. I can't be the best but at least i tried to write something can make you excited.. especially there is a second part then....our story starts by selena and her mental health and some overthinking which going to kill her one day ..and all of that and there's another thing talking to her who and how ..and why ...you will see ..

" "Break up, break up, I'm enough for you, you absolutely don't need him" The voice in the back of my head said. I casually pulled my phone out, contemplating on how I should go about ending everything with Jayden. I continuously stared at my blank phone screen thinking of what to say and I couldn't find the right words, but I got a sudden adrenal rush and wrote "I'm sorry, we're done". I felt like my world was crashing down when I sent that message but I don't care anymore because it's definitely for my best interest or I'd rather say my selfish interest. I heard a loud voice say again,

"You're mine now haha" "What the hell you're only a voice?!" I said screaming and quite terrified. "I'm more than that", he said with a loud smirk. Brrrr! Brrrr! The piercing sound of the alarm clock brought me back from the dead of sleep. I started to wriggle and stretch within my cosy, warm, haven that is my bed. As parts of my body were gradually turning on, I realised it was a dream and today was another day at school. Selena a nineteen year old old from Algeria, Her hair long and wavy brown, natural in curl and colour, and her face bashful and soft. She's a college student, studying English and Literary Studies at the University of

Constantine. Even if she wasn't good at communicating with others she still socialized. On my way home, I took my phone out of my handbag after a long day at school to text my boyfriend Jayden, but I discovered he already texted. I was about to text him back till I heard that voice in the back of my head again "Don't respond, treat him badly", I tried to ignore the voice but it wasn't working and I was fed up already so i switched my phone off and I didn't respond to Jayden. I felt anxiety kicking in, I became moody but I was emotionally scolding myself for ghosting and ignoring everyone when they tried to reach out, I guess I'm

toxic. But I'm honestly not a type who love relationships but I love Jayden so much and I think he loves me too but I don't want to be with him anymore probably, not because I hate him but because I'm always scared that everyone is going to leave me but I tend to leave them before they do. Few hours after ignoring Jayden's calls like I always do, I switched my phone back on and yeah Jayden had already sent a breakup text. Lol, I deserved that because I totally understand how he feels, because I've been ignoring him and giving him meaningless excuses, sadly him breaking up with me was the right thing to do because I was fed up

with being in a relationship as well. In that same harmony, I felt sad and started deleting contacts to feel good a little (a toxic trait I wish to get rid of) although I felt like screaming to let it all out but I couldn't because my parents were home and if I do that they'll think I'm crazy (obviously) and I don't need to see a therapist just yet. I blocked Jayden and deleted his contact so I don't make a mistake of wanting to text or call. Ghost pov: (make this part bold) "I told you didn't I? I told you am enough, ah i mean you're enough for you". Selena who was surprised and stunned asked me who I was and I gave a sarcastic response saying, "I'm you

assho- " "Shut up and let me study in peace" Selena said before letting me complete my sentence. "At least take a nap, you're exhausted", I told her since she doesn't want me she needed to stop pretending like she was okay and take a rest. She finally agreed to my terms and took a quick nap. Selena pov: Sleeping peacefully in her bed, Selena was cradling a pillow to her chest. The midnight sun beaming through her window blinds. She groaned picking up her alarm clock on her nightstand, Selena looked at the time. "Omg, I haven't read for my exams tomorrow!" She placed her clock back on the surface and slowly

began to sit up. Crawling out of her warm bed she heard a loud knock on the door and stood up to see who it was, standing at the door was her mom. Her mum came in with a worried look on her face, Selena asked what happened but her mum didn't answer. "What's going on mum?" "It's you Selena..." "me?" "Yes, you've changed drastically this few months you started school". "What do you mean mum? In what way?" I felt this was the perfect time I tells my mum the truth but I was hostile as hell and I'm not ready to be in an asylum just yet. "Selena, am your mother and you can tell me anything-" " Mum, what do you need?-" "Selena I

deserve to know what's wrong!" "Oh, really. I'll tell you when you start respecting my privacy" "What?... I'm your mother and I need answers. Are you even okay?" " I said I'm fine. Please leave, I want to read, I've got exams tomorrow. Thanks". I shut the door at my mum as she left my room. I know my mum is completely worried of what had suddenly come over me. Even if everything doesn't seem right, I knew she couldn't fix me sort of. It's 7:00pm, my heart is filled with so much void. I'm in room staring at my blank ceiling

asking my self what has come over me all of a sudden. Deep into mind of thinking, I heard that voice again but this time I wasn't dreaming. "I'm hereeeee" "What- I didn't call you here" "Since when-" " Just get out of my head, okay?" "Hm, I'm always here. Just so you know you'll always need me" the voice said whispering in my left ear. I turned left and right to be sure I'm not hallucinating. "Stay away from me ... I need a break and by that

I'm going to eat" I said. " But you don't eat meat-" " Damn that's true, I'm a vegan." "See... I'm always right. Just stay here, they'll come check in on you." " And if they don't?" "They will come on-" the voice said but was interrupted by a knock on the door. " Come eat your dinner, you've haven't had good for some hours" "Wait-, what's for dinner?" "Steak meat and mozzarella cheese. " What the hell mum! See what I've always said? Haha" "What do you mean?" "I'm a vegan, you don't remember?" "Since when, Selena?- OMG, I'm so sorry I forgot, but you could just eat one last time-" "Goodnight mum" I said slamming the

door shut at my mother. With anger I got in my cozy bed ready to sleep and forget all that happened but I got a notification and immediately I muttered a curse word. I turned my phone screen on and checked the message, "You left me today?" When I saw that message I screamed in my pillow and remembered it was my now ex boyfriend. " Oh hi, I'm sorry. I didn't mean it that way." I sent the message back and I cursed my self for unblocking him while I was studying. But anyways the deed has been done. " Can we get back together? I really do miss you." My crazy psycho heart skipped a bit and I made a dumb

decision and got back to him. I felt happy instantly. Quickly left my room to my mum's to hug her. "Hi mum. I really do need a hug." I said to her. "You was crazy a few minutes ago and now you're here?" She said annoyed. I know she had the right to be angry but I didn't care I quickly kissed her cheeks and ran back to my room to continue texting my boyfriend. And yeah, I fell asleep while texting. When I had woken up I checked my phone for any notification, and yeah I got one. A sweet good morning message from him. I was about to reply when I got that voice in my head say, "C'mon you don't need to reply" "Damn, I'll reply wtf!"

"As you wish." The voice said texted my boyfriend back and headed for school.

8:00am at University of Constantine, Algeria. Selena POV: I went to school today quite cheerful due to the recent happening between me and my boyfriend. I was at school and decided to meet my friends cause it's been a while without them, I miss them that's it. "Hey guys-" I said, but I had that voice in head again tell me "They probably gonna backstab you soon, it's best you don't sit with them. Just go sit alone." I bluntly ignored the voice even when it kept talking cause I don't have to act completely insane outside. But I suddenly I just felt like something took

control of me and I immediately questioning my friends, "hey, y'all didn't even check up on me-. Y'all are so hypocritic, maybe we all are. Not to sound selfish but y'all are literally the only friends I have yet y'all treat me like shit. I'm always the one pushing myself to y'all but I promise I'm never going to do that any more-" " Omg WHAT'S HAPPENING TO ME??", I felt my body changing and morphing into something else. I screamed at my friend's but none of them seemed to get close, they were all terrified like I was, technically. " WHAT'S... WHAT'S GOING ON WITH ME?" I yelled again but my voice had changed into a deep

masculine voice, I couldn't even process how I was feeling at that point. I just wish I'm not a ugly looking monster. "AHHHHHH", I looked at my self in the mirror and saw a monstrous looking monster with horns and I was so freaking out but I didn't have control of my body anymore. I felt different. I looked in the mirror and saw my face again and the monster in me say in a deep voice, "Knock, Knock, It's Me The Devil. Say Hello" he said. Pointing at my best friend Jaylene who looked completely freaked out and ready to kick the bucket he said, "Jaylene, remember when you lied to your mother that you were going to college

but you went to meet your boyfriend. Aww how sweet. I was there though." Turning to Zoey he said through me, "remember when you stole that dollar bill from Selena's bag, I was there but y'all never seems to notice" "I'll be active in Selena's body for 24 hours at most. And don't be scared ladies" he said finally. My phone rang and I picked it up, technically the devil is in control of my body so I pleaded with him to end the call and thankfully he did. I told him to let me get control of my body back but he didn't listen. I asked him to atleast spare my two best friends which he slightly didn't agree to, "Don't worry I'm not gonna hurt them". He

said aloud and obviously we've been communicating through the mind I don't know maybe some telepathic kind of bullshit I don't pay attention to. I asked him again "Are you even Human?" " I'm your devil, mi signora." He said, suddenly I started feeling dizzy and everywhere was becoming bleak I'm fading.

Selena passed out and he took her his world. Might seem delusional but it's for real, I can hardly put it into words. "Ugh, where am I? Where is this place?"

Have I been kidnapped or something?" I said with so much fear in her voice. "Are you ready to see me" he said. "Who are you?! Let me-" I couldn't finish my sentence I felt a relaxing hand touch my back and I swear I would have been dripping down there but I instantly remembered I don't know exactly where am at. So I quickly said "hey, don't touch me", with a shaky voice I said. "Shhh, Baby Girl I'm the DEVIL" He said but I scoffed cause who the hell is this. Well he was invisible so I had less believe. "Aha, stop the cap and show yourself", I said. "Are you ready for the big reveal?- But hold on, on one condition! When you

see me you'll be mine, you ready for that?" He said, I screamed in annoyance, "No I don't want to see you!". "Come on, when you're ready I'll come for you and remember I can give you literally everything". "Uhm, what do you mean by that-", I felt something leave my body and immediately I asked myself "What the hell was that, why do I keep hearing voices" I felt dizzy again and boom I saw my self on my cozy bed. "Ouch, my head aches so bad", I said as I sat upright on my bed. Suddenly, I heard that voice in my head again. "I did it", he said "What?" "The headache of cause, I told you I can give you anything"

"I don't care about your stupid shit, I just want to sleep" I said but he still wanted a reply from me and I shut him out. Well, I slept off the bed was unusually warm and damn I was losing my breath. I couldn't breath, I felt my soul subconsciously leaving my body, I felt like was being controlled with a remote. I screamed as loud as I could and woke up totally unaware of what was going on in my surrounding, faintly I saw my mother holding and caressing me with her arm, although she was crying and scared for me. "Selena wake

up, what's going on?!" "Wake up it's mum, please wake up" she said shaking my body and checking my pulse. I asked faintly, "where am I?" "You're home, Selena" "Mom please don't let go of me" with this my mother held me tighter. I shivered when I heard that voice in my head say, "you better not tell her what happened, you'll still come back to me soon". With this my mother immediately asked what was wrong and going on but I was mute. "SELENA!" "Yes, mom. What's up" "What happened?" "It was just a nightmare, mom. Can I go to sleep again?". "Yes it's fine, you can sleep". I woke up at exactly 7:15am, at least

that's what my clock says. I had completely forgotten about what happened at night and with no clear form of remembering. "Selena, you can't go to school today" said my mom. "Why mom?" "You know all your sisters are in school and your baby sister can't stay home alone, I just want you to be with her for today" she said, making me cuss my existence. While I was thinking if a response, the voice reappeared and said, "fuck it, ask her why we should stay" "WE?" I blurted out forgetting my mom was right in front of me. "WHAT!", My mom said quite confused. "Oh no, nothing. Yes-, yes I'll stay". "WHAT! Are you goddamn

serious, well you'll see hell ngl" the voice (devil) said. Hypothetically speaking, I had seen hell cause my baby sister was like a pain in the ass and voilà my dad was home. He's such a douche bag because he's always shouting for no reason. So I did all my house chores, took care of my baby sister and put her to rest as well. I too had to sleep and immediately I tried to sleep I felt my self struggling to breath, I felt something was choking me and also felt like I was being suffocated. Soon it stopped, "Wake up, Selena" he said with a slow voice. I felt my soul back in my body again and I said, "ugh, my head aches again. What's going on

with me? Why are you doing this, aren't you ashamed? You're a ghost and I don't even know who you are! Just leave me alone". "Shh, I wanted to show my self but you didn't agree to my condition". The voice replied touching my cheeks even if I didn't see the figure, I immediately had the courage to ask, "Are you even handsome? Not like I care but it's just... just-, well I agree but you have to promise that once I see you, you won't show up in my life again!". "I don't think you heard my conditions properly-". He responded. I could feel him piercing his eyes on me. "I told you that when I show my face, you'll be

mine. He added touching my neck and holding my hair. He was making me feel like ripping my panties apart but nope, I ain't doing that. "Fine, I'm ready. I said with hopes of seeing him finally.

"Fine...Fine, I'm ready!" "Go to sleep right now cause I'm taking you far away tonight..." Few minutes after drifting away my body began to hurt. I screamed loudly, "Oh my God, my body's hurting and I'm bleeding!! Wait are you going to take my soul too?"

"Hey, be quiet. It's necessary you feel

pain when I'm in you so be calm"
Scared but quite anxious of my
surrounding I saw everything
differently and it felt like it was a
different world entirely. "Hey, you".
She said taking me out of my thoughts.
" Your name is going to be Aphrodite in
my world and guess mine?" I gazed at
her in awe, "WHAT? SHIT! WHY
Aphrodite ? WHAT'S YOUR NAME
THEN? She replied, "I'm ASTAROTH
typically a mix between APHRODITE
and Astaroth " What do you mean? Are
you a ghost or something" I asked.
"Day after day, you're going to slowly
understand" " I DON'T GET IT, WHAT
THE FUCK IS HAPPENING?" I said

screaming on the top of my voice. " This is my world and you're in my world. Behind the sun, and also in the real world no one's going to see me but you're going to see me. Just need a little trade". " Oh God, help me! What the actual fuck is hap...pening..." "Chill girl... I just need your soul, and besides you're not gonna regret it. You're going to be strong, powerful and you'll take control of everything..." "WHAT POWER? JUST GO AWAY FROM ME, I don't need your power or whatever you just talked about." " Don't worry you're going to accept it, let me give you a few days." He said leaving me anxious, I was hyperventilating at this point

cause I was surprised at what happened. I kept asking myself what I've gotten into. Days passed without a word from the voice but I kept having nightmares. I felt like I was missing something and i felt hopeless at that point and began to think about everything he said. I felt powerless and felt the need for power, I yearned for it badly to feel the void

them like wtf where are you im not a
