FUN FACTS

Wood comes from trees. Some houses are made from wood and so is a lot of furniture. Paper is usually made from wood too.

Rubber comes from a tree called the rubber tree. Car tyres are made from rubber. The rubber in your pencil case isn't made from rubber now, but from something man-made.

Cotton comes from a plant. The English word 'cotton' comes from Arabic. Some money is made from cotton mixed with other materials.

Leather is used for many things such as shoes, boots, jackets and bags. In the past, people used leather for cups, tents, bottles and many other things. Today most leather comes from cows, but it can come from crocodiles, snakes and other animals.

Wool is a very warm and cool material too. Wool keeps its shape and is great for making trousers, sweaters and jackets. Cashmere is a very soft and expensive wool and comes from cashmere goats. These come from many countries, including Iraq.

Working in a busy hospital

Many people we know have been to a hospital or to see a doctor. But do you sometimes think about what it is like to work in a hospital? This is a doctor's story.

Tell us about what you do every day.

I'm a doctor. I am a heart doctor (or surgeon). From Sunday to Thursday, I work in a hospital. I wear a uniform – it is a white cotton coat and a thin white or blue headscarf. I look after my patients and I try to make them better. I get up very early because I usually do operations in the mornings. In the afternoons, I visit the wards and check on my patients.

Is your job difficult?

I work with a small team of other doctors and nurses. We are usually very busy. I often work for many hours. Some operations take a long time, perhaps five or six hours. It is a difficult job, but I love it.

What are you doing now?

Today is Saturday and it's my weekend. I'm not working in the hospital. I'm spending time with my family. We are shopping in the mall. Today we are looking for winter clothes. My son is buying a warm denim jacket. My daughter is buying a thick sweater. I'm buying comfortable shoes for work. But we're not shopping now. What are we doing?

What do you do at the weekends?

I spend time at home. I do washing and cleaning. I play with my children and I see my friends. I cook and I clean the house. Sometimes, I play tennis. When I feel tired, I read or watch TV.

When you open a book do you think about how paper is made?

The history of paper

History books tell us that paper was invented in China more than 2,000 years ago, but the Ancient Egyptians made a type of paper from papyrus plants a long time before this.

Paper is everywhere

We use paper for so many things that we can't think about a world without it.

Does your family read newspapers, magazines and books?

We use boxes, paper towels, paper bags and many more paper things every day. In the classroom, we write on paper every day. Paper is everywhere!

What is paper made from?

Most paper is made from wood, but there are other materials that can be used. Paper can be made from cotton, grass, straw, sugar cane, or even from beets.

Beets growing on a farm

Looking after trees

It is important that we conserve trees by recycling paper. Many of the paper products we use today are made with a large percentage (%) of recycled paper.

(A) (49) Listen and read about the new laptop.

My family's new laptop by Basim

Yesterday, I went to the mall with my family to look for a new computer.

My dad said that we should buy a laptop because it is easy to carry. It shouldn't be too big or heavy.

My dad and mum can use the laptop for work or at home. Hiba and I can use it in our bedrooms for homework. We can search for information when we have a school project.

Mum says that we can email our friends and family, but we must have safe passwords. We should remember the password but we shouldn't write it down, and we must share information and photos with friends and family only.

We looked at lots of laptops. Some were too big and some were too small. A lot of laptops were too expensive. It took a long time to choose the best one for our family.

Our laptop is silver with black keys. It has a mouse and a webcam – that's a web camera. It can connect to the internet. It can play music and we can send messages.

A computer mouse

A computer mouse is not a real mouse, but it looks a bit like a real mouse and that's how it got its name.

Computer mice are made from plastic. Most mice have two buttons – a left button and a right button. Some mice also have a wheel in the middle for scrolling up and down.

Learning to use a mouse is important because it lets you do many things: navigate the internet, play games and control your computer or laptop. You must hold your mouse correctly. Here's a picture to help you.

You should:

- keep the mouse flat on the desk or table.
- place your hand over the bottom part of the mouse.
- put your thumb on the side of the mouse closest to the computer.
- put your index finger on the left button.
- put your middle finger on the right button.
- put your other fingers on the far side of the mouse.
- keep your wrist straight.

1 Why is it called a mouse?

2 How many buttons do most mice have?

3 What do you use the wheel for?

4 Which finger should you put on the left button?

5 Where should you put your thumb?

This computer was made in about 1985.

Space travel

► Read the interview Wisam had with his teacher.

Humans have landed on the Moon six times and twelve astronauts have walked on it.
Do you think humans will go to Mars?

In the future, I think humans will go to Mars.
Mars is a lot farther from Earth than the Moon. The quickest travel time will take about nine months. Scientists think that there is probably water on Mars.
By 2050, science and technology will be better. We will have faster spaceships.
There will probably be lots of robots to help humans.

This is a picture I found of what a Mars spaceship will look like.

Do you think humans will ever go to the farthest planets, Uranus or Neptune?

I think it will be very difficult and very dangerous for humans. It will take a long time to get there.

Bike riding is fun and healthy. But remember that a bike is not a toy. You must follow some rules to help you stay safe. First, let's look at your bike. Is your bike safe?

Safe riding rules

Follow these safety rules when you ride your bike.

- 1 Before getting on your bicycle, you should check that it is ready to ride. Let's check these five things.

- 2 Wear a helmet. If you have an accident, you must protect your head. This is very important.
- 3 Check your tyres. Tyres should be hard, not soft.
- 4 Check your brakes. Brakes are very important because sometimes you need to stop quickly. You can't stop if your brakes don't work well.

84

- 5 Is your seat the correct height?

You must be able to put your feet on the ground.

- 6 Are your handlebars the correct height? Can you sit on your bike and touch the handlebars easily?

- 7 Ride carefully with both hands on the handlebars. Carry your books and lunchbox in your backpack. Some bikes have a basket for carrying things.

- 8 Can cars, buses and trucks see you? Wear bright, colourful clothes. Yellow and orange are good colours.

- 9 Look at the road in front of you. Sometimes there are holes, stones, broken glass or other dangerous things on the road.

Teacher's Day

In Iraq, we celebrate Teacher's Day on 1st March. This is a special day and we celebrate it because we want to thank our teachers for everything that they do for us. Here are some ideas.

- You can write a 'Thank you' note or a letter. Your note can be short or long. Both will show your teacher that you are thinking of them on this special day.
- Making a card is another great way to thank your teacher. In my class, we think cards are the best way because you can decorate the card and you can write your own message.

These are three cards that pupils in my class made. Now they need to write 'Happy Teacher's Day' at the top and write their messages inside. This is what some pupils said.

I drew a tree with the sun and grass because in March it is spring. My teacher loves spring.

I drew some flowers and strawberries because strawberries are my teacher's favourite fruit.

I made my card with cut-out boats on the sea because my teacher likes going to the seaside.

1 What season is Teacher's Day in?

Spring

2 Why do we celebrate Teacher's Day?

Because we went to thank our

3 Write two good things about making your own card?

It's cheaper, and you can write your own message

4 How would you decorate your teacher's card?

I make it with cutouts and some drawings
